

Subject
George Weisz unit 0411

My name is Andria Davidson . My father passed away May 29 2023. His Last Will and Testament page one clearly indicates his children that survive him would receive his personal and real property to be shared equally. Should they be unable to agree { in this case Aruba{ then the executor except if the executor was one of his children would have absolute discretion, Jamie Weisz my brother was made the executor and thus did not have legal authority to deny my rights to ownership of the Aruba timeshare.

Sometime in October 2023 ? Jamie decided without any notice to me, without any discussion of compensation to secretly misrepresent his legal authority to your legal department .The result was to transfer title to himself and additionally to his wife.

.After months of silence I discovered in late 2024 what he had done. He refuses to give back my title or to negotiate a fair market price.

In the quest for justice my Lawyer discovered the Decree Granting Probate. The document validates the will and grants James M. Weisz the right to pass real and personal property, The date of this decree { top right corner } appears to be January 14 or 16 2024.

James aka Jamie obviously did not have legal authority from the court or from myself to self deal the Aruba timeshare in October of 2023 or any time since, Jamie needs to understand I have the equal rights to Aruba and his actions were reprehensible.

My lawyer will be sending you my fathers Last Will and Testament and a copy of the decree, It is my hope you can take the steps to conciser the 2023 transfer null and void . Additionally I want to exercise my legal rights to be added to the title.

My sister Betsy, the third beneficiary} in action and words has eliminated all her rights to Aruba and has no interest in the timeshare
